EDUCATION

Institution	Degree / Board	Passing Year	Score / CGPA
Indian Institute of Technology Hyderabad	B.Tech	2027	7.84
Jawahar Navodaya Vidyalaya Rewa	Class XII (CBSE)	2022	85.00%
Jawahar Navodaya Vidyalaya Rewa	Class X (CBSE)	2020	83.40%

WORK EXPERIENCE

Business Analyst Intern at Licious | 6 months

- Worked across **Finance, Growth, Data & Supply Chain** functions, applying SQL, Python and analytics to solve business problems across customer, revenue and operational workflows.
- Built a **test-vs-control analysis for SR Consol**, evaluating apology-message + coupon interventions for customers with poor order experiences using **D1-D7 retention, conversion and incremental orders**.
- Built a **D1-D7 lapsers funnel** across **DAU, ATC, Transaction, CRM delivery, click-through**, identifying customer journey patterns to optimize CRM intervention timing.
- **Analyzed first-5-order behavior across ARPU deciles**, identifying high-value category preferences and behavioral patterns to inform targeted promotions and customer growth strategies.
- **Segmented customers by affluence** to identify differences across customer groups and enable targeted analysis and business strategies.
- Built a **short-settlement dashboard** for Finance to track product-weight leakage, contributing to a **37% reduction i**n short-settlement amount (57L To 36L) over four months.

SKILLS

Programming: Python, C++, C, SQL

AI/ML: Machine Learning, Neural Networks, Scikit-learn, Pandas, NumPy, TensorFlow

Product & Analytics: Funnel Analysis, Customer Segmentation, Experimentation & Test-Control Analysis, Retention Analysis, Customer Journey Analysis

Visualization & BI: Tableau Prep, Matplotlib, Excel, Google Sheets

Automation: Airflow, Google Apps Script

Problem Solving: Solved 400+ DSA problems in C++

PROJECTS

E-commerce Customer & Product Analytics : *Python, Pandas, NumPy, Google Sheets, Matplotlib, Seaborn*

- Cleaned and analyzed customer, order, and product data using **Google Sheets and Python/Pandas** to uncover business trends.
- Performed **customer segmentation, purchase behavior, product, and retention analysis** to identify growth opportunities.
- Developed **data visualizations** using Matplotlib and Seaborn to communicate key trends and actionable insights.

Diabetes Prediction System : *Python, Scikit-learn, Pandas | Machine Learning*

- **Preprocessed and standardized** the PIMA Indians Diabetes Dataset, preparing features for machine learning.
- Built an **SVM classifier** achieving ~90% test accuracy and compared it with Logistic Regression and Random Forest models.
- Performed **hyperparameter tuning and model evaluation** to identify performance improvements.
- Developed a reusable pipeline for **real-time predictions** on new patient data.

POSITIONS OF RESPONSIBILITY

Placement Coordinator - Office of Career Services (OCS), IIT Hyderabad

- Pitched to **80+** companies and **converted 15+** for IIT Hyderabad's upcoming placement drive, broadening recruiter participation and hiring opportunities
- Served as **company POC** for IIT Hyderabad's 2-day **Japan Career Day**, coordinating with participating companies to support recruiter communication and event execution.

Hospitality Coordinator - DIESTA 2025, IIT Hyderabad

- Managed hospitality and logistics for 250+ participants, leading a 15-member team and coordinating with vendors to ensure smooth event execution.

Internship Coordinator - Office of Career Services (OCS), IIT Hyderabad

- Managed internship recruitment for **50+** companies, coordinating resume shortlisting, interview scheduling, pre-placement talks, and recruiter-student communication to ensure efficient and transparent internship processes.

RELEVANT COURSES

- Product Analytics Tutorial, Advanced SQL Tutorial
- R & Python, Data Structures & Applications, Artificial Intelligence, Foundation of Natural Intelligence
- Statistics, Probability, Algebra, Calculus, Differential Equations

SCHOLASTIC ACHIEVEMENTS

- Selected among the **top 0.2% of** 50K+ candidates for the **GAIL Utkarsh Super 100** Kanpur in 2022.
- Selected as an **FFE Scholar (2023)** through a competitive interview for academic excellence.

EXTRACURRICULAR

- Represented Jawahar Navodaya Vidyalaya at the **NVS Regional Chess Championship**, competing against top school-level players at the regional level.
- National Sports Organization **(NSO)** Athletics player at IIT Hyderabad.
