EDUCATION

Institution	Degree / Board	Passing Year	Score / CGPA
Indian Institute of Technology Hyderabad	B.Tech	2027	6.72
Sri Chaitanya Junior College	Class XII (Board of Intermediate Education AP)	2023	93.50%
Dr. K.K.R. Gowtham School	Class X (Board of Secondary Education AP)	2021	99.67%

PROJECTS

Notification Framework | *Python, FastAPI, REST APIs*

- **Developed** a **multi-channel notification system** using **Python** and **FastAPI** for **Email, SMS, WhatsApp, and Push**.
- **Implemented retry and failure handling** to reprocess unsuccessful notification attempts and switch to another provider when required.
- **Built API-key authentication** and **rate limiting** to control access and manage notification requests.
- **Integrated queue-based processing** and **delivery tracking** to manage notification jobs and record their status.

Rental Management System | *SQL, Database Management*

- **Developed** a **rental management database** for handling **properties, tenants, leases, payments, and maintenance**.
- **Designed** related database tables and **SQL queries** to store, retrieve, and manage rental information.
- **Implemented** workflows for **tenant registration, lease management, payment tracking, and maintenance requests**.
- **Created** SQL-based operations for **adding, updating, and retrieving rental records** across related tables.

RISC-V Assembler | *C++, RISC-V, Computer Architecture*

- **Built** a **RISC-V assembler** in **C++** to convert assembly instructions into **machine-code output**.
- **Implemented R, I, S, B, U, and J instruction formats**, handling **registers, opcodes, function fields, and immediate values**.
- **Processed branch labels and offsets** to calculate immediate values for branch instructions.
- **Organized** instruction encoding into **format-specific modules** for structured RISC-V instruction processing.

Infinite Precision Arithmetic | *C++, Data Structures, Operator Overloading*

- **Developed** a **C++ arithmetic library** for **addition and subtraction** of arbitrarily large integers and floating-point numbers.
- **Implemented** custom **Integer and Float classes** using **vector-based digit storage** for large numeric values.
- **Handled signs, carry, borrow, and decimal alignment** during arithmetic operations.
- **Overloaded arithmetic operators** to process **string-based numeric inputs** beyond fixed-size integer limits.

SKILLS

Programming: C, C++, Python

Web Technologies: HTML, CSS, JavaScript

Backend & Databases: FastAPI, REST APIs, SQL

Development Tools: Linux, Git, GitHub

CERTIFICATIONS

Certification in Software Development Engineering with Applied AI -- *Vishlesan i-Hub, IIT Patna*

- **Training:** Python, DSA, HTML, CSS, JavaScript, **REST APIs**, **FastAPI**, SQL, Git & GitHub, and **Applied AI**.
- **Covered: Backend Development**, **Database Fundamentals**, **LLM APIs**, **Prompt Engineering**, and **AI-assisted software development**.

BE10X Certificate of Completion - AI Tools and Cloud Workshop | *BE10X* | **2026**

- **Covered:AI-assisted Presentations, AI-based Data Analysis, Coding & Debugging, Cloud Tools**

RELEVANT COURSES

- **Computer Science :** Software Engineering, Data Structures & Algorithms, Database Management Systems, Operating Systems, Computer Architecture, Computer Networks, Theory of Computation, Compilers, Deep Learning, Foundations of Machine Learning.

- **Mathematics :** Discrete Mathematics**,** Probability and Random Variables, Linear Algebra, Statistics, Calculus.

EXTRACURRICULAR

- **Engaged in drawing, painting, and craft activities** as part of my regular **creative interests**.
- Actively **Participated in various social events and volunteering activities** during **college**.

POSITIONS OF RESPONSIBILITY

- Member of National Service Scheme (**NSS**) 2023 - 2027

HOBBIES & INTERESTS

- Listening to Music, Watching Movies, Cooking, Drawing, Painting
