EDUCATION

Institution	Degree / Board	Passing Year	Score / CGPA
Indian Institute of Technology Hyderabad	B.Tech	2027	8.96
Kendriya Vidyalaya Aliganj	Class XII (CBSE)	2020	94.20%
Kendriya Vidyalaya Aliganj	Class X (CBSE)	2018	94.60%

PROJECTS

VendorBridge : AI-Powered Wedding Vendor Discovery & Pricing Platform

- Built an **AI-powered vendor recommendation system** combining SQL-based filtering and weighted scoring to match users with vendors based on budget, rating, and style, validating demand through primary research (**86%** platform intent)
- Developed a **RAG-based pricing system** using historical listings to retrieve relevant market data and generate data-driven pricing insights, reducing pricing error from **68%** to under **12%**
- Integrated AI-driven recommendations and pricing intelligence into a unified platform to support faster, data-backed wedding vendor decisions

QuickStock : AI-Powered Dark-Store Demand Forecasting & Stockout Prevention

- Built an **AI-driven inventory intelligence system** using Gradient Boosted Trees and classification models to predict store-item demand and identify potential stockouts in advance
- Reduced forecast error by **25%** and identified over **75%** of potential stockouts in advance through predictive modeling
- Built a **GenAI agent** that converts model outputs into actionable, natural-language restocking recommendations, helping store teams make faster inventory decisions

MeloMatch : NLP-Based Music Recommendation Chatbot

- Built an **NLP-powered AI chatbot** that interprets user intent, mood, and free-text inputs to generate personalized music recommendations
- Developed a conversational recommendation pipeline that maps natural-language inputs to relevant music genres and recommendation signals
- Developed and deployed a **Flask REST API + React** interface supporting real-time, bilingual AI-powered conversations

EXPERIENCE

Aquad Software Solutions Pvt. Ltd. | Web Developer Intern

- Audited system performance, diagnosing key bottlenecks and prioritizing fixes by impact
- Redesigned UI components and optimized backend workflows, boosting responsiveness and usability
- Delivered iterative, user-focused features with cross-functional teams in **Agile** sprints

POSITIONS OF RESPONSIBILITY

Office of Career Services, IIT Hyderabad | Outreach & Assessment Manager

- Led the end-to-end execution of **Japan Career Day 2026**, coordinating with **JETRO** and bringing **21 Japanese companies** to campus, with **1,000+ students** participating in company interactions and career sessions

- Managed event planning, company coordination, student engagement, scheduling, logistics, and on-ground execution, ensuring smooth interaction between Japanese recruiters and IIT Hyderabad students

- Scaled employer outreach to **2,000+ organizations** by designing a structured stakeholder-engagement process, improving coverage and consistency across placement and internship recruitment

- Designed and scaled assessment operations for **1,800+ students**, coordinating execution across **2 Assessment Leads** and **300+ student coordinators** to standardize evaluation quality and turnaround

SKILLS

Machine Learning - Regression, Classification, Clustering, Time Series, Statistical Modeling, Hypothesis Testing, A/B Testing, GenAI & Agentic Systems

Data & SQL - Python, NumPy, Pandas, Scikit-learn, SQL

Tech Stack - FastAPI, React, REST APIs

RELEVANT COURSES

Technical Subjects: Machine Learning and its Applications, Data Structures & Algorithms, Database Management Systems

Mathematical Subjects: Probability, Statistics

Management Subjects: Strategic Management, Operations Management

JAPAN COLLABORATION & CROSS-CULTURAL INNOVATION

Tongali Project

- Collaborated with Japanese startup founders to adapt their ventures for the Indian market and shape locally viable business solutions.

- Won 1st Prize at the Final Startup Pitch Session by presenting a business concept to an expert panel.

Learn in Bharat 2025 Ideathon Workshop

- Partnered with Japanese peers to study rural India's challenges across agriculture, education, and livelihoods.

- Co-developed a solution to raise crop yield in rural communities; awarded 1st Prize.

Kyoto University Deeptech Entrepreneurship Spirits Program 2026

- Worked with Kyoto University students on innovative solutions for urban challenges in India.

- Proposed an approach to urban flooding by adapting Japanese flood-management techniques to the Indian context.
