PROFESSIONAL EXPERIENCE

KALNET | Partnership Assistant - Founder Associate | Jan 2026 - Jul 2026

- **Drove B2B outreach to 800+ prospects** through LinkedIn and email, generating qualified leads for business expansion.
- **Led 10+ product demos**, converting 3+ clients and contributing **3M+ in B2B revenue** through solution-based selling.
- **Analyzed institutional requirements and market feedback** to identify the LMS opportunity and define core modules and features.
- **Authored the LMS PRD**, translating user requirements, competitor gaps, and business needs into product specifications.
- **Tested the LMS across user roles and scenarios, identifying bugs, usability issues, and product improvements.**
- **Built the BDE team to 10+ members** across 4+ MBA colleges, driving 500+ prospects and 3+ demos per member.
- **Scaled the organization from 5 to 80+ members** across technology, sales, marketing, and operations through structured recruitment.

Deccan AI Experts | LLM Evaluator | Feb 2026 - May 2026:

- **Evaluated AI-generated responses** for relevance, accuracy, reasoning, and instruction adherence across provided interactions.
- **Scored model outputs and identified response errors**, providing structured feedback to improve AI model performance.

PROJECTS

NOVAMART | SALES & INVENTORY MANAGEMENT SYSTEM

- **Built a production-style inventory system using SQL, Python, and JSON,** with 13 relational tables covering products, customers, suppliers, sales, returns, inventory movements, stock levels, and transaction records for business operations.
- **Developed SQL reports for revenue, profitability, inventory health, and customer value,** with automated stock controls, transaction tracking, audit records, and business rules to prevent overselling and maintain inventory accuracy.

HYBRID LMS | PRODUCT MANAGEMENT | KALNET

- **Defined LMS modules and user workflows for students, instructors, and administrators,** translating institutional requirements into structured product features, functional requirements, and user journeys across key learning workflows.
- **Conducted competitor analysis and feature prioritization,** supporting product requirements, usability testing, cross-functional development, feature validation, and product decisions across multiple LMS modules.

SAAS DASHBOARD | PRODUCT ANALYTICS | KALNET

- **Structured dashboard requirements** for subscriptions, user management, and product performance, translating business needs into **actionable metrics and product workflows**.

- **Established key metrics** for user activity, subscription trends, and performance monitoring to support **data-driven product decisions**.
