EDUCATION

Institution	Degree / Board	Passing Year	Score / CGPA
Indian Institute of Technology Hyderabad	B.Tech	2027	8.25
Akshay Public School, Kota	Class XII (CBSE)	2022	92.00%
Mukesh R Patel School, Shirpur	Class X (CBSE)	2020	97.40%

WORK EXPERIENCE

Product Intern | American Express

Platform Strategy & UX Execution

- Diagnosed compliance workflow lacking an SOR, tracing **5 failure modes** to a single root cause to spec a **6-module platform.**
- Built a **17-step parametric SLA and 3-gate priority model,** reducing end-to-end cycle time by **~60%** across 7 global teams.
- Led **product design** via live **Figma prototypes** and **LLM tooling**, cutting mock-up turnaround by **~65% (1-2 weeks to 2-3 days).**
- Slashed stakeholder sign-offs from **3 weeks to 1; killed a feature prior to launch** after testing showed it **misled users.**

AI & Technical Product Management

- Engineered a Python pipeline processing **1,245 daily feeds,** building a **4-tier fuzzy match engine (97.1% auto-match rate).**
- Surfaced 36 unmapped system governance gaps, automating the intake handoff to cut **month-long manual reviews to one week.**
- Root-caused a data anomaly fixing **1,155 false** country code hits ("BE" misread), unlocking **3 core telemetry capabilities.**
- Enabled decommissioned **system detection, coverage analysis, and automated alert volume diagnostics** across global teams.

Strategy & Research Intern | Tayog

Tayog is an early-stage academic tech startup building 0-to-1 solutions for researchers and university ecosystems.

- Mapped **0-to-1** needs via **50+ interviews** with stakeholders, structuring academic pain points into **product hypotheses.**
- Drove **GTM strategy and campus outreach,** validating the core MVP narrative to secure early adoption from **30+ researchers.**

POSITIONS OF RESPONSIBILITY

Convener (Overall Head) | Tinkerers' Lab, IIT Hyderabad

- Led a **150-member society** across **9 verticals**, raising **30L+** in sponsorships, project funding and donations over the tenure.
- Scaled **THRUST**, IITH's techno-management fest, from **4K to 6K footfall** on a **20L budget**, tripling the prize pool to **10L.**
- Replaced outsourced workshops with **student-led AI, ML and robotics sessions**, reaching **1,000+ students across 15 schools**.
- Expanded the management body into the **Institute Innovation Council**, now governing all techno-entrepreneurial clubs at **IITH.**

Head Placement Coordinator | OCS, IIT Hyderabad

- Lead the non-core hiring cohort and Chemistry placements, running a **40-member team** across a **500+ corporate database**.
- Replaced manual copy-paste outreach with **templated, auto-triggered mailers and reminders**, scaling to **800+**

recruiter emails.
- Introduced **tier-based planning** for hiring drives, lifting company interest **~40%** and internship conversions **~30% YoY**.

Manager, PR & Networking | E-CELL IIT Hyderabad

- Built and owned a **50+ VC network** for E-Cell, opening direct founder-investor access across pitch and mentorship sessions.
- Drove outreach to **10+ premier E-Cells** via tailored decks and PR campaigns, lifting inter-campus startup engagement **40% YoY**.

PROJECTS

Dazzle | Community Events Platform -- 0 to 1 Discovery & MVP

- Ran **user research** and benchmarked **5 alternatives** to map **3 personas** around one need: hosting plans in a trusted community.
- Shipped a **single-feature MVP** on Vercel with **zero seeded events**, trading join volume for a clean organic-hosting signal.
- Defined the pilot metric set -- **host rate, fill rate, W1 retention** -- with thresholds and decision rules set before launch.

SpendShield | Fraud Risk Policy & Decision Engine

- Engineered **5 features** and a Python LR risk model on **6.36M transactions, achieving 0.945 PR-AUC** on a time-based holdout.
- Optimized a **3-tier decision policy** via grid search, lifting fraud capture to **98.8%** to cut total simulated cost by **98.6%.**
- Stress-tested against **feature-scale data drift,** delivering an **interactive dashboard** and memo to drive policy monitoring.

AI-Driven Agentic Employee Background Verification Dashboard | Hackathon Project

- Developed a **two-agent system** (main + self-reflecting agent) integrating **text-to-SQL** conversion for a DB querying chatbot.
- Implemented tools for statistical analysis and interactive visualisation to deliver real-time insights on employee's background (BGV) status and allied information according to the data types, followed by an action-suggestion agent.
- Generated dynamic data-driven dashboards that reduced **TAT for BGV status** interpretations from **1-2 hours to 3-4 minutes.**

SKILLS & RELEVANT COURSES

- **Tech & AI:** SQL, Python, Power BI, REST APIs, Figma, Jira, Database Fundamentals, Applied ML, GenAI Tooling
- **Product Analytics & Metrics:** DAU/MAU, Retention Cohorts, Funnel Analysis, A/B Testing, North Star Metrics, Unit Economics
- **Product & Design:** PRDs, User Research, Prioritisation, Stakeholder Communication, Cross-Functional Delivery
- **Relevant Coursework**(Business)**:** Design Thinking, Lean Start-ups, Competitive Strategy for Start-ups, Innovation Management, Game Theory for Start-ups, Visual Analytics, Introduction to Sales & Marketing, Finance for Engineers, Introduction to AI

EXTRACURRICULAR ACTIVITIES

- **Inter-IIT Sports 2024:** Placed 4th in Basketball; NSO member, city-circuit player, and active half-marathon/10K runner
- **Hackathons & Strategy:** Built Hangman prediction solver(Meltwater Hackathon), won Inter-Hostel GC 2024-25 Marketing Event.
- **Stage & Storytelling:** Inter-IIT Street Play Team 2023 ensemble; awarded the 'Mr. Fresher' title during first year.
- **Personal Interests:** Avid guitarist and creative photographer; competitive school quizzer and spelling bee participant.
