EDUCATION

Institution	Degree / Board	Passing Year	Score / CGPA
Indian Institute of Technology Hyderabad	B.Tech	2027	6.48
Unique Public Higher Secondary Jammu	Class XII (JKBOSE)	2022	98.00%
Radiant Public School	Class X (JKBOSE)	2019	98.00%

WORK EXPERIENCE

Twenty

Role: Open Source Contributor

Location: Remote

https://twenty.com/ California

Jul 24 - October 24

-**Debugged, modified** and **fixed** various issues in key components of the **twenty CRM** like fixing **React context state** not showing properly , making an entirely new **Keyboard Navigable DropDown** feature.

-Learned new Libraries like **React Recoil, Floating UI, React Query, Emotion React** etc and learned new patterns of state management using **atom family, dynamic atoms** etc.

-Worked with a spectrum of technologies like **React, Postgresql, Typescript, GraphQl** etc.

Qudelta Studios

Role: Software Developer

Location: Remote

https://qudeltastudios.com/

Jun-Aug26

-Built a **custom workflow management system** for an ads company.

-Used **React** for the frontend for a **fast** and **light** experience.

-Used **Postgres** as the Database and **Cloudflare R2** storage to store **large image** assets.

Rooms on Rent

Role: Software Developer

Location: Remote

https://roomsonrent.in/

Aug 24 - Dec 24

https://github.com/Faisal-imtiyaz123/Rento

-**Developed** and **launched** the **entire software infrastructure** of https://roomsonrent.in/ from scratch.

-Used a **CMS** to manage all the **image** assets and concerned information.

-Developed an efficient solution to **handle large number of users** by **caching static content** of pages at **build time**

and by using as much **Server Side Data fetching** as possible.

Noobverse

Role: SDE Intern

Location: Remote

https://www.linkedin.com/company/noobsverse/mycompany/India

Jun-Jul 24

- Built **Frontend** and **Backend** Components for a **Hopsital Management Platform** developed using **Nextjs** and **Typescript**.

- Used Libraries like **Next UI** for importing components, **React Query** for managing data fetching and **error handling**, **React toast** for displaying **errors** etc.

PROJECTS

Event Notification System Java

- A **Event Notification System** for managing **EMAIL, SMS and PUSH** events.

- It processes the three events in **parallel** ensuring **thread safety.**

- Each event has a different **queue** managed by **EventQueueManager**. An event is processed by a **QueueProcessor** which emits a response to a **callBack url.**

-**Graceful Shutdown** is implemented which **waits** for a certain time to process events in the queue and ultimately **shuts down** the app.

- Tools & technologies used: **Spring Boot, Java**

- GitHub: https://github.com/Faisal-imtiyaz123/event_notification_system

New Script

-**newScript** is my **own programming language.**

-The project includes a **Compiler, Custom Code Editor** with **custom made syntax highlighting** and **Output Console.**

-Website-Link:https://newscript.netlify.app

-Github:https://github.com/Faisal-imtiyaz123/newScript

ShareGram

-A **Social Networking Platform** incorporating all features like **image upload, messaging, profile management, following unfollowing** other users , in built **content feed , making account public or private etc.**

-It uses **Clerk** and modifications for a secure Auth , **TRPC** to make typesafe api's , **React** for a blazing fast experience , **Cloudinary** to handle storage of **image assets** and **Pusher** for handling messaging.

- Tools & technologies used: **Nextjs, Tailwind, Shadcn, Zustand, MongoDb, Clerk**

- GitHub: https://github.com/Faisal-imtiyaz123/share_gram/

- Website-Link: https://share-gram-123.netlify.app/

Personal Portfolio

My **Personal Portfolio** Website built using **Nextjs , JavaScript, SCSS and Tailwind.**

- Tools & technologies used: **Nextjs, Tailwind, Typescript**

- Website-Link: https://portfolio-rho-two-47.vercel.app/

Wordle web game

It's a **web game** written in **Typescript** made with **Reactjs**.

- Tools & technologies used: **Reactjs, Tailwind, Vite, TypeScript**

- GitHub: https://github.com/Faisal-imtiyaz123/Wordle

- Website-Link: https://inquisitive-sable-e8c3e1.netlify.app/

TECHNICAL SKILLS AND INTERESTS

Skills: OpenSource, Frontend Development, Backend Development, REST API Development

Languages: Java, Javascript, Python

Developer Tools: CLI usage, git, github, Docker, Kubernetes

Frameworks and Libraries: Spring Boot, Reactjs, Nodejs, Express.js, Nestjs, Nextjs, Flask, Django, FastAPI, Redux, React

Query, Zustand, Tailwind CSS, MUI, JWT, OAuth2

Cloud/Databases: SQL, MongoDB, SQlite, MySQL, PostgresseSQL
