EDUCATION

Institution	Degree / Board	Passing Year	Score / CGPA
Indian Institute of Technology Hyderabad	B.Tech	2027	8.17
Devagiri CMI Public School Calicut	Class XII (CBSE)	2023	98.60%
Kendriya Vidyalaya Kannur	Class X (CBSE)	2021	97.40%

EXPERIENCE

Country Delight | Product Management Intern

Country Delight is a tech-driven, farm-to-doorstep (D2C) brand that delivers milk and food essentials through an integrated supply chain.

Rs.9 Store: Cart Activation Feature

- Diagnosed 98.5% funnel drop-off across 119K app opens, identifying cart initiation as the key activation lever for Instant Delivery.
- Designed Rs.9 Store to replace the existing cashback model, targeting first add-to-cart while reducing incentive spend.
- Owned end-to-end design lifecycle, delivered prototype iterations, HTML mockups, PRDs & MoEngage metrics for tech handoff.
- Defined a metrics framework (Add-to-Cart, AOV, margins, ROI) to govern feature scaling, experimentation, or pivoting.

User Research and Cross-Category Discovery

- Conducted 50 user interviews (virtual & offline) across cross-sell cohorts to uncover user needs, shopping behaviors & pain points.
- Identified UX friction points hindering cross-category discovery, distinguished navigation and discoverability issues.
- Translated user insights into a home-screen UI redesign & catalogue-led discovery experience, approved by growth & design.

WiSH Mentorship Programme 2025 | Texas Instruments

- Selected among 143 students nationwide for TI's WiSH programme to build socially impactful solutions with industry mentorship.
- Conceptualized R!PPLE, a low-cost rural flood-alert product, identified key user constraints like unreliable connectivity.
- Designed, built and validated R!PPLE end-to-end, making architecture trade-offs across LoRa P2P, GSM, sirens and on-device Random Forest; iterated an ESP32/Arduino-based PoC with KiCad low-power hardware against connectivity and power edge cases.

PROJECTS

Case Study: Rural Retail Digitisation | Market Entry & Financial Feasibility | Department Of Management Project

- Evaluated digitisation gaps among rural micro-retailers, identifying poor bookkeeping & credit leakage as key business challenges.
- Designed a voice-first, vernacular bookkeeping solution tailored to low digital literacy & limited connectivity, translating to product.
- Evaluated 5 GTM models using competitive benchmarking & unit economics, recommended partner-funded distribution.
- Built a 5-year financial model projecting INR 1.93 Cr NPV, estimated 32K-merchant break-even & advised stage-gated pilot.

Quick-Commerce Product & Customer Analytics | Python, PowerBI, SQL

- Analyzed 3M+ orders, 206K customers, and 34M items from the public Instacart dataset, applying customer segmentation and order-sequence retention analysis to decode purchase behavior at scale.

- Uncovered a 59% reorder rate and 10-item average basket size, segmenting customers by purchase frequency to surface distinct behavioral cohorts and retention opportunities.
- Built an interactive Power BI dashboard with DAX measures translating reorder rates, basket size and segment behavior into retention insights directly applicable to quick-commerce ordering platforms.

AI Workforce Exposure & Reskilling Strategy | Independent Project

- Benchmarked AI exposure across 60 O*NET tasks & 3 IT-BPM roles, validated occupational rankings against the ILO 2025 index.
- Optimised Rs25Cr workforce investment for hypothetical 10K-employee firm using 3-year financial modelling & integer programming.
- Prioritised work redesign and redeployment, projecting Rs.17.9 Cr NPV and 98% ROI vs. Rs8.7 Cr for exposure-led reskilling.
- Stress-tested 11 drivers; established reskilling break-even thresholds and positive NPV across all scenarios.

Agentic Personal Discovery and Action Engine | Python, Streamlit, SQLite

- Framed information overload in product discovery as a testable hypothesis and designed an agentic flow from plain language intent to explained, constraint-verified recommendations with save, compare and refine actions.
- Built a multi-agent recommendation engine on 283 synthetic catalogue, combining intent parsing, ranking, constraint & verification.
- Benchmarked 3 ranking approaches on 23 queries, Precision@5 rose from 44% to 97%, constraint violations fell from 44% to 0%.

POSITIONS OF RESPONSIBILITIES

Undergraduate Representative | Student's Gymkhana, IIT Hyderabad

- Represented 2,000+ undergraduates as the primary student-administration liaison and advocating for student needs.
- Led 60+ class representatives to identify, consolidate, and prioritize recurring student issues for administrative resolution and Implemented a structured feedback system to translate student needs into actionable policy improvements.
- Led end-to-end execution of an Rs.8 lakh event for 1,600+ attendees, directing 15+ volunteers across theme development, decor, catering, logistics, and faculty-administration coordination to deliver a seamless large-scale event.

Consulting Domain Coordinator | Finance & Consulting Club, IIT Hyderabad

- Selected from 120+ applicants to lead consulting initiatives for a 700+ member community and Led Horizon's flagship industry panel end-to-end, coordinating 15+ industry experts across speaker outreach, panel curation, and execution.
- Drove an institute-wide case competition across 20+ hostels, managing end-to-end planning, coordination, and on-ground execution.

ACHIEVEMENTS & CERTIFICATIONS

ProdX: *Runner-Up in* product case competition by Finance & Consulting Club, IIT Hyderabad at Horizon'25.

Data Science, ML, DL & NLP Certified -- Udemy

SKILLS & RELEVANT COURSES

Technical Skills & Tools : Python, SQL, Excel, Power BI, Streamlit, Jira, MoEngage, PowerPoint

Bussiness Courses : International Business,Innovation Management, Introduction to Sales & Marketing, Finance for Engineers, Marketing Research, Fundamentals of Organizational Structure, Game Theory for Startups,Economics for Technocrats,Foundation of Design Thinking for Entrepreneurship

Analytics Courses : Visual Analytics, Predictive Modelling, Artificial Intelligence, Bussiness Analytics using Python, Probability

EXTRACURRICULAR

- **Inter IIT Cultural Meets (7.0 & 8.0):** Represented IITH in culinary arts and slam poetry, lead the culinary contingent to a Top 5 finish.
- **Product Curiosity:** Enjoy dissecting everyday products, questioning design choices, and spotting user pain points, occasionally sharing my perspectives and ideas on LinkedIn. (https://lnkd.in/p/dcq4k2Ey , https://lnkd.in/p/dae4zKW8)

- **Beyond the Classroom**: An avid reader, runner, and enthusiastic baker.
