EDUCATION

Institution	Degree / Board	Passing Year	Score / CGPA
Indian Institute of Technology Hyderabad	B.Tech	2027	5.48
Narayana Junior College	Class XII (Andhra Pradesh State Board)	2020	8.59%
Indian School Salalah, Oman	Class X (CBSE)	2018	78.60%

SCHOLASTIC ACHIEVEMENTS

1. Ranked 21st out of 140 students in the Department of Mechanical Engineering, R.V.R & J.C. College of Engineering (B.Tech, 2020-2024)
2. Completed B.Tech in Mechanical Engineering with a CGPA of 8.02/10
3. Secured 87% in Intermediate (MPC) at Narayana Junior College (2018-2020)
4. Secured admission to the M.Tech program in Thermo-Fluid Engineering at IIT Hyderabad

POSITIONS OF RESPONSIBILITY

1. **Public Relations & Networking Associate, E-Cell, IIT Hyderabad (Aug 2025 - Mar 2026):** Led outreach to industry leaders, startup founders and college networks for E-Summit and E-MergeWorked with the media, marketing and logistics teams to host 1,000+ delegates, speakers and student founders across multi-track summit events
2. **Co-Organizer & Event Operations Lead, Uncalled Innovators (Sept 2023 - Jul 2024):** Planned and ran a 24-hour regional hackathon with 100+ participants from universities across Andhra Pradesh and TelanganaManaged venue, workstation setup, schedules and real-time troubleshooting, and coordinated judging criteria with mentors and the founding team
3. **Co-Head- Events and PR SPICAMACAY IIT Hyderabad chapter (Oct 2025 - Sept 2026)**

SKILLS

1. **Design & CAD:** SolidWorks, CATIA, AutoCAD, Fusion 360
2. **Simulation (CFD & Combustion):** Ansys Fluent, Chemkin
3. **Manufacturing:** Lathe machining, welding, steering and chassis fabrication.
4. **Soft skills:** Analytical thinking, problem solving, written and oral communication, cross-team collaboration, Basic japanese.

RELEVANT COURSES

1. Computational Fluid Dynamics (CFD)
2. Advanced Computational Fluid Dynamics
3. IC Engine Combustion and Pollution

PROJECTS

Autonomous Rocker-Bogie Mars Rover Replica

- Designed and built a 6-wheel rover chassis with a passive rocker-bogie mechanism, modelled in SolidWorks/Fusion 360
- Integrated an Arduino with ultrasonic, temperature and humidity sensors for real-time telemetry
- Achieved stable traversal over obstacles up to 2× wheel diameter without tipping, by balancing the linkage geometry

Design and Fabrication of Competition Go-Kart Steering Mechanism

- Designed the full steering assembly using Ackermann kinematics in CAD to withstand dynamic lateral race loads
- Secured 3rd place overall in a national competition by optimizing steering geometry to reduce tire scrub and improve cornering response
- Manufactured tie rods, knuckles and brackets by lathe machining and welding, and cleared technical scrutineering

with zero infractions

EXTRACURRICULAR

1. Member of a team that secured 3rd place overall in a national go-kart design competition [ISNEE Motorsport in bangalore]
2. Student Coordinator volunteer for college events at R.V.R & J.C. College of Engineering, handling coordination and on-ground execution.
3. Attended E-Summit 2024 at IIT Bombay as part of the startup team Uncalled Innovators, engaging with founders, investors and the wider startup community.
