EDUCATION

Institution	Degree / Board	Passing Year	Score / CGPA
Indian Institute of Technology Hyderabad	B.Tech	2027	7.67
Kendriya Vidyalaya Mathura Cantt No1	Class XII (CBSE)	2021	8.10%
Kendriya Vidyalaya Picket	Class X (CBSE)	2019	7.20%

SCHOLASTIC ACHIEVEMENTS

BIODESIGN FELLOW 2026

In Indian Institute of Technology Bombay| Asstt. Registrar (R&D)

The post of BIODESIGN FELLOW, for the Sponsored Project entitled "Medical Engineering Design and Innovation Centre (MEDIC)" undertaken in the Department of Bioscience & Bioengineering.

POSITIONS OF RESPONSIBILITY

Consulting & Analytics Club

In IIT Guwahati

Trainee

Formulated data-driven solutions for real-world problem-solving.

Dealing With NPI/ Manufacturing Company Inquiry regarding availability and price quotation for laboratory

In eNaRm Lab| IIT Hyderabad

Coordinated with NPI/manufacturing companies to inquire about the availability, specifications, lead times, and price quotations for laboratory equipment and consumables. Supported the acquisition of laboratory resources by coordinating requirements with vendors and project stakeholders, contributing to efficient **resource and procurement planning**.

(NCSTC), Department of Science & Technology, Government of India

Represented Kendriya Vidyalaya Mathura Cantt

Project Lead

Led a project focused on the importance of preserving traditional knowledge and its role in promoting sustainable development and environmental conservation. Responsibilities included gathering data, managing the project, and engaging the team.

SKILLS

Project Control Planning & Scheduling function, Lab-on-a-Chip, Biomedical device & Digital Technology Architects health wearable sensors using software Lightening, Biomedical imaging, Bioinformatics, Biostatistics, 3D CAD modelling , Electrospinning, Wet and Dry lab, BCI Neurotech Expert in software OpenNeuro EEG, ECG and AI & Machine Learning python (NumPy, Pandas) , Control systems. Industry Management Procurement, PowerPoint, Experience MS Projects, MS office & SQL, Excel communication & organizational skill. Strong experience in Design & Execution Operations & Procurement Sales & Business Development Client & Stakeholder Management project management, site scheduling & project scheduling. RAG-based solutions & Research emerging AI technologies and suggest improvements. Brand Guard AI Trustworthy AI Brand Intelligence Agent & Generative AI.

RELEVANT COURSES

Omnicampus 2026

Matsuo-Iwasawa Laboratory at the University of Tokyo.

Provides a hands-on learning experience covering everything from the purpose of studying data science to the fundamentals of Python and machine learning, as well as the practical application of data in business settings.

Longevity Medicine

Translational AI aging research

A key focus of this course is the emerging role of Artificial Intelligence in medicine and biogerontology. Learn how AI and machine-learning approaches are being applied to aging research, biological age estimation, biomarker interpretation, risk prediction, precision medicine.

Tokens to Transformers: A Course on GenAI × LLM Mastery

Building an Gen AI model is one thing, but deploying it reliably for millions of users presents an entirely different set of challenges. This session will explore how AI systems are architected, optimized, and scaled in real-world production environments.

McKinsey.org Forward program

Core Skills Level learning journey takes place on the McKinsey online learning platform.

Principles and Applications of Quantum Computing

Indian Institute of Technology Mandi, CQST

Quantum computing applications, biomedical engineering apply subatomic data processing principles (superposition and entanglement) to solve complex biological, chemical, and diagnostic challenges. What I gain and skill Quantum Mechanics: Knowledge of superposition, entanglement, and interference and control systems.

PROJECTS

CT Image Reconstruction and Filtered Back-Projection Analysis Biomedical Imaging

- Generated Shepp-Logan phantom sinograms using the Radon transform & implemented simple back-projection and compared Ram-Lak, Shepp-Logan, Cosine, Hamming, and Hann filters.

- Analyzed image quality trade-offs between edge sharpness and noise suppression.

Statistical Inference Methods in Bioengineering (Stage-II)

- Performed statistical comparison of Cerebral Blood Flow (CBF) and Mean Transit Time (MTT) measurements between diabetic and control groups & developed hypothesis-testing framework using null and alternative hypotheses for biomedical datasets.

- Applied power analysis and sample-size evaluation using statistical programming methods.

- Used computational analysis to support interpretation of biomedical research data.

Design & Development, Reverse Engineering and Prototyping of a Laryngoscope

Designed and developed a conceptual laryngoscope CAD model by studying its system and subsystem components, including the blade, handle, light source, power supply, and locking mechanism.

E-Commerce Conversion Prediction using Machine Learning

Developed a machine learning model to predict whether an e-commerce user would convert based on demographic, browsing, engagement, and behavioral data. Implemented and compared XGBoost, LightGBM, and Random Forest models using stratified cross-validation and combined them into an ensemble model.

27th National Children's Science Congress - Regional Level

Presented a science project on Traditional Knowledge Prototyping System, under the focal theme Science, Technology & Innovation for Clean, Green and Healthy Nation. Represented Kendriya Vidyalaya, Mathura at the regional-level event held at Kendriya Vidyalaya, Noida.

EXTRACURRICULAR

HACKATHON

1) Participant, Convolve 4.0 - Pan-IIT Guwahati AI/ML Hackathon (2026) , Clear Preliminary Round1.

2) Participated in the TenzorX National AI Hackathon 2026 and Organized by Poonawalla Fincorp in IIT Hyderabad.

AI IMPACT SUMMIT WORKSHOP

In IIT Hyderabad: Dr. Nagarajan Ganapathy, Assistant Professor, DAAD Fellow. Precision Medicine and Clinical AI: Laboratory Innovation to Bedside Application.

Test & Assessment

1) Inspired By Zomato for Product Analyst Role: Krack The Case 2026 Aptitude Test Rank 296, Score 76/150.

2) Inspired By Media.net for Analytical Roles: Krack The Case Aptitude Test Rank 195, Score 92/150.

3) Week 1 Quiz & Coding - From Tokens to Transformers: A Course on GenAI x LLM Master Rank: 509, Score: 56/100.

National Conference

In IIT Hyderabad in collaboration with AIIMS New Delhi, NIMS Hyderabad

Dr. Nagarajan Ganapathy, Assistant Professor, DAAD Fellow. Cardiovascular Research Convergence (CRC 2026), Data Science & AI Cardiology.

Painting

1) State Level Competition: Organized by the State Level Co- ordinator

In Oil Industry, Hyderabad, Telangana, oil & gas Conservation mass awareness campaign.

RESEARCH TRAINING & INTERNSHIP

GoSakha Innovation LLP

In Hyderabad, Telangana, India |AI Healthcare Business Development Intern

This is a 3-month performance-based internship focused on developing business opportunities in the healthcare sector through AI-enabled healthcare solutions. The role combines healthcare business development, market research, AI-Research decision-maker identification, and direct outreach to hospitals and clinics.

Fall 2026 Health Careers Program (HCP)

In NW, Washington, USA | Internship Coordinator: Tamara Telles, MPH Programme Manager

Remote Research Intern in Healthcare Management & Mentor/ Mentee Program. Organized by the National Hispanic Health Foundation (NHHF). Gaining exposure to health-care career development tech, professional mentorship, networking, and research.

Bay Area Medical Explorers 2026

In Los Altos, California, USA | Internship Coordinator: Lathika, Research Team Head, BAME

AI Digital Health & The Impact of Technology on Medicine Research Intern

Remote Worked collaboratively with a Research Team Leader and fellow interns globally based project teams to work to develop research skills in health Informatics and digital health wearable sensors and biomedical imaging EEG, EMG source OpenNeuro & ImagingJ Software and their applications in modern medicine.

Summer Analytics 2026 - Consulting & Analytics Club

In Indian Institute of Technology Guwahati, India | C&A club

Intern Completed a 6-week program focused on Data Science and Machine Learning, Gained practical exposure to data analysis, feature engineering, machine learning techniques, and predictive modelling through a structured analytics program.

Plasmid Innovation Pvt Limited

In Bengaluru| Internship assistance: Supriya

2-month internship at Plasmid in the domain of Machine Learning. Gained practical exposure to machine learning concepts and focus on Reinforcement Learning and Neural Networks.

HOBBIES

Sketch, Painting, Sports (Cricket, Football), Tracking & Reading Novel.

RESEARCH INTERSET

Lab-on-a-Chip, Biomedical device, Biomedical imaging, Bioinformatics, Biostatistics, 3d printing, Electrospinning, Wet (Textile Scaffolds, Organoid) and Dry lab (BCI, Bioinformatics) and AI & Machine Learning, Gen AI, Deep Learning.

LANGUAGE

English, Hindi
