PROJECTS

Software Developer - Internship

I successfully completed two months internship at Amani Automation Pvt Ltd from june, 01, 2026 to July, 31, 2026.

Contributed as a software developer for the front-end development. My work supported Edu-tech platform that can connect AI &ML experts with learning enthusiasts.

Worked as a Software Developer focusing on front-end development using **HTML, CSS, JavaScript, and React.js**.

Developed responsive and user-friendly interfaces for an **Edu-Tech platform** connecting AI/ML experts with learners.

Applied **UI/UX design, API integration, debugging, and problem-solving** skills to enhance platform functionality.

Collaborated with the development team to implement features and improve the overall user experience.

Frontend Developer - Self-Hosted Tools Explorer

Built a responsive React.js web app to explore and filter self-hosted tools from the awesome- selfhosted list.

Implemented category filters, search, and GitHub integration with a clean, mobile-friendly UI using Tailwind CSS.

Full Stack Developer - Chromaic

Developed a full-stack GenZ e-commerce platform using React.js, Tailwind CSS, Node.js, Express.js, and MongoDB, featuring dynamic product listings, wishlist, and secure checkout. Integrated JWT authentication, Cloudinary, and designed RESTful APIs for efficient product and order management while ensuring responsive UI and optimized performance across devices

Learning Resources Master

A curated collection of essential learning materials for web development, UI/UX design, and programming fundamentals.

Includes structured guides on tools like React, GitHub, Figma, and Postman to support self- paced learning.

Perfect for beginners preparing for tech internships and frontend roles.
