EDUCATION

Institution	Degree / Board	Passing Year	Score / CGPA
Indian Institute of Technology Hyderabad	B.Tech	2027	7.80
Ramnarian Ruia college	Class XII (HSC)	2018	71.85%
Udayachal High School	Class X (SSC)	2016	91.40%

WORK EXPERIENCE

Godrej Locks and Architectural Solutions - internship

1. Worked on a family of products, specifically rim locks. I worked on the following products: Deadlock, Twinbolt, and Tri-bolt
2. I redesigned the product family. I worked on solving the design-related problems of a rim lock, along with the form and CMF design of the lock.
3. I also had to research the product to find out what the different solutions are that people are looking for as a door security solution.
4. The main aim was to create a complete package which includes the hinges, handles, lock, bolts and other accessories.

Blue Encore- Internship

Worked on their inhouse packaging projects

PORTFOLIO

Link- Porfolio

PROJECTS

Godrej SSD- Packaging design for 15 l locker

Designed the structural packaging for the 15 l locker. The packaging was made from corrugated paper. The aim was to provide structural support to avoid any damages during the transportation of the product through India

Godrej SSD- Redesigned the CMF of the Fire Resistant Locker

I had to redesign the product which included the opening mechanism, experience design and the cmf of the product

Godrej Prima - Interface design for coffee vending machines

Designed the interface for 3 coffee vending machines

All Time Plastics - 3D renders for marketing material

Created 2 photo realistic renders for their marketing.

All Time Plastics- Label design for their products

Created graphic labels for their 2 organizers **.**

SKILLS

3D modeling and rendering

well versed in the following softwares

1) Rhino

2) Fusion 360

3) Solidworks

4) Creo

5) Blender

6) Keyshot

Prototyping

Form and CMF

Concept development from ideation to protoype
